

Lecture Notes on Incentives and Regulation

Cesaltina Pires

March 5, 2001

CONTENTS

1	Principal agent paradigm	4
1.1	Types of principal/agent problems	5
1.2	Moral Hazard Problems	6
1.2.1	General assumptions:	6
1.2.2	What if e was verifiable?	7
1.2.3	What if e is not verifiable but the agent is risk neutral? . .	9
1.2.4	What if e is not verifiable and agent is risk averse?	10
1.2.5	Special case - two levels of effort	11
1.2.6	Continuous effort and continuous outcome	18
1.3	Mechanism Design and Revelation Principle	21
1.3.1	Monopolist non-linear pricing example	21
1.3.2	Revelation principle (General)	26
1.3.3	Revelation principle (one agent)	29
1.3.4	Adverse selection with continuum of types	30
2	Introduction	37
2.1	Regulatory Environment and Institutions	38
2.1.1	Regulatory Constraints	38
2.1.2	Procurement versus Regulation	40
2.1.3	Commonly Used Incentive Schemes	40
3	Traditional Regulation Theory	45
3.1	Natural Monopoly	45
3.1.1	Subadditive Cost Function	46
3.1.2	Natural Monopoly and Contestability	50

3.1.3	Natural Monopoly and “War of Attrition”	54
3.1.4	Should a Natural Monopoly be Regulated?	56
3.1.5	Regulatory Problems for Natural Monopoly	57
3.2	Efficient Pricing with Full Information	58
3.2.1	Boiteaux-Ramsey Prices (Balanced Budget)	58
3.2.2	Non-Linear Prices	60
3.2.3	Peak Load Pricing	61
3.2.4	Stochastic Demand	64
3.2.5	Problems with “Traditional” Theories	64
3.2.6	Examples	64
4	Cost Reimbursement Rules	66
4.1	Model	66
4.2	Two types case	70
4.3	Continuum of Types	74
4.3.1	A quick look to the regulator’s problem	75
4.3.2	Solving the regulator’s problem	77
4.4	Summary of Results	84
4.5	Yardstick Competition	85
4.6	Auctions	86
4.6.1	Auction Theory	86
4.6.2	Application to Regulation	87
4.6.3	Sequential Auctions	88
5	Pricing by a single product firm	91
5.1	Model	91
5.1.1	Complete Information	92
5.2	Incomplete Information	94
5.2.1	Decentralization of Price Decision	96
5.3	No Transfers Allowed	97
5.3.1	Optimal Two Part Tariff (given c and t)	97
5.3.2	Optimal Regulation	102

6	Regulation of a Multiproduct Firm	105
6.1	Complete Information	106
6.2	Incomplete Information	107
6.3	Pricing without cost observation	110
7	Dynamics of Regulation	113
7.1	Commitment	114
7.2	Non-Commitment	115
7.2.1	A digression - PBE	117
7.2.2	Continuum of types	120
7.2.3	Two type case with two contracts	123
7.3	Commitment and Renegotiation	130
7.3.1	Second Period Renegotiation Contracts	131
7.3.2	First Period Contract	134
8	Regulatory Capture	138
8.1	Single Firm, Agency as Supervisor	141
8.2	Multiple Interest Groups	145
8.3	Cartelization	146
8.3.1	No other interest groups	146
8.3.2	Other interest groups	150
9	Pricing and Competition	152
9.1	Access Pricing with dicotomy	154
